BANDED TUITION

maximizing student experiences
WHY TALK ABOUT THIS?

Arm students and advisors with tangible opportunities to maximize the use of banded tuition.

Focus on positive messaging to show the benefits of the new model.

Continue the expectation of on-time graduation and 15/semester—30/year credit hour enrollment.
FOCUS AREAS

1. Personal Enrichment
2. Preparing for Employment
3. Preparing for Graduate or Professional School
4. Finishing Faster
5. Taking Advantage of Downtown
METHODS

Minors
Certificates
Electives
Career Planning Courses
Internship Courses
Research through Independent Study
MEDIANS

General: digital signage, social media, websites, posters
Paid social media for IUPUI students
Printed handouts for advisors to distribute during advising interactions
Messaging for advisors
College is more than just getting a degree—it’s a chance to learn about the world. Enrich yourself with an elective each semester in a new area of interest. Learn a language, a skill, an art, or a new topic. With banded tuition, student pay the same fee for 12-18 credit hours. Make yours count.
GET TO WORK.

With banded tuition, you can take up to 18 credit hours for the same amount you would pay for just 12. Taking more credit hours isn’t easy; try working on campus to save time and money.
PREPARE FOR YOUR CAREER.

Planning for after college is just as important as studying for your finals. Most schools have courses for career planning and internship experiences (some are required). Work with your advisor to pick the best course for your program. With banded tuition, adding these courses to your schedule won’t cost you more time or money.
